REPORT OF LIBRARY TRUSTEES

During the past year 174 new books have been added to the library and of this number 136 were fiction. The library now contains about 3200 volumes of which about 2000 are fiction. The same periodicals have been provided the reading room as last year. The original heating plant is still in use and will be continued until such time as a removal may become necessary. An inventory of the library, together with a discarding of some of the old material will become necessary in the near future.

The expenses for the past year were as follows:

Salary of Librarian	\$150.00	
New books	203.78	
Magazines	14.75	
Fuel	39.00	
Lighting	12.92	
Janitor Service	11.50	
Care of Library Grounds	26.75	
Insurance	61.25	
Miscellaneous	10.14	
		\$530.09

We estimate the expenses for the coming year as follows:

Salary of Librarian	\$150.00	
New Books	200.00	
Magazines	15.00	
Fuel and Lighting	75.00	
Repairs and Miscellaneous	110.00	
		\$550.00

We therefore recommend that this amount of \$550. be appropriated.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT

To the School Board of North Hampton :

I, herewith, present to you my second annual report as Superintendent of your schools.

It is a pleasure to report that the record of "perfect attendance" in the schools of North Hampton has again been raised. Last year's honor roll included eighteen names as compared with sixteen the previous year. This achievement cannot but react to the betterment of scholarship. That this is realized is proven by the very nearly unanimous approval of parents. As might be expected from the honor roll the percent of attendance advanced to somewhat better than 97.

Since the former report four achievements, of real worth, have been realized in your schools.

The playground, the purchase of which was authorized in the annual meeting of last Spring, has been acquired and work upon its development has been started. The purchase of volley balls and nets has furnished the pupils with a means of orderly and healthful exercise. During suitable weather these are in almost constant use, as are the swings and other equipment.

Care must be continually taken lest the younger pupils, particularly those of the first year of school life, devote too prolonged a time to mental work. Body development is so rapid that mental fatigue must be guarded against. For this reason it seemed best that North Hampton should follow accepted modern procedure and establish a two session system for the first grade at the Centre

School. In order that the pupils, who do not go home for dinner, may be properly supervised, a play room has been arranged in the building. This room is equipped with a low library table and chairs, of suitable size, at which the children may read or play games, as they wish. After this period of rest and a warm lunch served in the building, the children are ready to work more effectively than would be the case were they to keep busy at school work during the whole forenoon. This new program, together with the method of teaching Reading which was introduced last year, I believe is in great part responsible for the more intelligent reading in our first two grades. Reading tests given the second grade this December showed but one pupil below standard median. This seems to prove that the correct methods are being employed in this subject.

In the meeting of all Primary teachers in the seven towns of this Union held in Hampton on February 15, Miss Taber gave a demonstration of teaching first grade Reading as it is taught in North Hampton. This proved so interesting and valuable to the teachers present that a demand has come for its introduction into all the towns of the Union.

The fifty dollars appropriated in the budget of last year for library books has been so used. These books were purchased, graded according to the pupils, and placed where the pupils would see them constantly—in their own rooms. The resulting use of them has been gratifying and I recommend that a corresponding amount be set aside in the current budget for the same purpose.

The Rythm bands, started last year, under the direction of the Music Supervisor have proven a very enjoyable activity on the part of the pupils. Such bands furnish a groundwork for teaching time, phrasing, coordination

and unity, that is of value in itself apart from its later application in music work. The work of this band has been extended in a somewhat advanced form into the middle grades. These two organizations form the groundwork upon which Miss Swinnerton and Mrs. Coombs are building a school orchestra. Such things add a morale to the school which can be obtained in few other ways.

The teaching staff of your schools is especially satisfactory and I am certain from standardized tests given during the middle of the year that results in June will be gratifying. We must report the resignation of Miss Marcia Hartford during the Summer vacation. Miss Frances Goodhue was secured to take the middle grades and her work here is highly commended. She is an experienced teacher, a graduate of the three year course of Plymouth Normal School and holds the highest form of teacher credentials granted by the State of New Hampshire.

I wish to express my appreciation of the kindly helpfulness of the school board, co-operation of the teachers and friendship of the boys and girls.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent.
